The North Pole isn't bigger
Than a quarter, while around it
Are miles and miles and miles of ice.
He was a peach to've found it,
Just an imaginary pole
In an imaginary socket!
Say! Cook could get up in the dark
And find a woman's pocket!

HOT BLAZE

Saturday Night—Two Cottages With Contents Partially Destroyed

The alarm of fire between 10 and 11 o'clock Saturday night was caused by the burning of two cottages in Williams street between Houston avenue and Wood streets, belonging to Edward Chambers, employed at Kackley's bookstore, and a Mrs. Ward, both colored.

The Chamber's house, where the fire started, was occupied by Mr. Clarence Davis, an employee at the Ohio River Lumber Co.'s plant. Both Mr. and Mrs. Davis were away from home at the time, and it is supposed that the fire had its origin in a live coal falling off the grate and setting fire to the floor and surroundings.

The Amazon and Sixth Ward Fire Companies were prompt to respond and did noble work in subduing the flames and confining the fire to the cottages burned—being part of a row of a half dozen or more cottages, all of which were in danger of being destroyed.

Mr. John Shaw, while engaged in carrying out furniture, was badly burned about the head and shoulders by the ceiling falling on him.

Both houses were fully insured, as well as Mr. Davis' furniture.

It was a slippery trick in the Republicans putting a Tariff on eels.—Frankfort State Journal.

MANY of the Republican newspapers in Iowa are stigmatizing the "progressive" Senators and Representatives in Congress from that State as "assistant Free Traders."

THE increase in the cost of living being world-wide forces The Boston Transcript to the conclusion that Tariffs and Trusts are not affecting prices to any great extent.

THIS from the San Francisco Chronicle is right to the point: "About half of the growing imports of the United States are on the free list, but the fact does not seem to cheer the advocates of Free Trade, because the six hundred millions or so of goods that come into the country without paying duty are foodstuffs and raw materials which we cannot profitably produce ourselves. The kind of Free Trade asked for by the advocates of downward revision is the sort that would displace American workingman's products, but they are not going to get it while the voting masses retain their senses."

Do you know what a mugwump is? He bears the same relation to the Democratic party on this side that a Populist bears to it on that side. (Laughter and applause.) Just a little too good to be a Republican and not good enough to be a Democrat.—Senator Bailey, at Pilot Point, Tex.

"Newspaper advertising is the lightning express of publicity. In the unification of newspaper advertising lies the success of the merchant."

THE ICE MITT

Brooklyn Life.

One cold day a lovesick young man, who had for some time harassed a young lady with his attentions, was hurrying along the street behind this very young lady, when he perceived, with delight, something drop from her muff to the sidewalk.

Picking it up, the gallant young man rushed ahead and, accosting her smilingly, held out her recovered property.

Without deigning to accept it, she eyed him coldly a moment, then said: "You may keep it. It's my mitten!"

FRANK COOPER

Of This City Shoots and Kills John Stapleton—Claims Self Defense

Frank Cooper, aged 38, a native of this city, and whose mother resides in Lee street, is being held in Cincinnati on a charge of murder.

Cooper shot Stapleton during a fight in the building at the Southwest corner of Sixth and Smith streets, Cincinnati, some ten days ago.

The testimony at the Coroner's inquest tended to disprove Cooper's claim of self-defense. An eye-witness testified that Stapleton and Cooper were fighting "like two dogs" on the floor and when Stapleton got up and retreated into his own room Cooper fired the fatal shot. Harry Cohen, a ten-year-old boy, testified that he had heard Cooper say, "I'll get even with you," shortly before the fatal shot was fired. Cooper, who is charged with murder, did not testify, but will be given an opportunity to tell his version of the affair later. His mother was in Cincinnati last week arranging for his defense.

Messrs. Charles Biggers and Elsie Clift returned yesterday from Falmouth, where they had been for the past week attending the Fair and races. They won two races, second money in one and third money in two, besides getting several blue ribbons. They are still winning with the unbeaten Durrett horse.

Saturday the Mason County Board of Control of the Burley Tobacco Society elected S. A. Shanklin Director and Robert T. Watson County Chairman. A report on the tobacco pooled in this county showed that 6,970 acres had been pooled up to today, against 1,840 acres not pooled. The members are working hard to make Mason county a 90 to 95 per cent. county.

JEALOUSY CAUSES MURDER

William H. Ginn Takes Life of His Wife Then Shoots Himself

Crazed by jealousy, William H. Ginn, 41 years old, formerly of this city, shot and instantly killed his wife Friday night last at Louisville, and then placed the revolver in his mouth and pulled the trigger. The two bodies were found side by side when the police rushed to ascertain the shooting. Ginn was taken to a Hospital and will recover.

It seems that Ginn's jealousy had been directed principally toward his son, Thomas P. Ginn, 22 years old, and there had been frequent quarrels between the man and his wife.

Friday night at the supper hour when Mrs. Ginn went to a grocery her husband followed her. As the two entered an alley near their home Ginn pulled his revolver and shot his wife in the back. She fell dead at his feet.

Ginn had been twice married, his first wife having been a Miss Emmons and the second a Miss Goodwin, both of this city.

Shortly after his second marriage Ginn moved to Louisville, where he was a tobacco worker and was in comparatively good circumstances.

Louisville papers on Saturday stated that Thomas Ginn, the son of Mr. Ginn by his first marriage, has been missing since shortly after the shooting and there is some mystery involved. At a late hour Friday night he had not returned to his home and could be found nowhere in Louisville. He sent three telegrams from the Western Union Telegraph office and then went to the undertaking establishment of C. Miller & Sons, where his step-mother lay dead, and had not been seen since, so far as is known.

Undertaker Coughlin Saturday went to Louisville and yesterday returned with the remains of Mrs. Ginn, which were taken to the home of her father, Mr. Frank Goodwin, in East Front street.

The funeral will take place at 2 o'clock this afternoon from Olivet Church, near Rectortville, the interment following in the Cemetery at that place.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Governor Harmon of Ohio will deliver the address of welcome at the opening session of the Ohio Valley Improvement Association at Cincinnati October 14th.

Captain J. B. Demere, the purchaser of the packet Keystone State, is pushing necessary repairs to have the steamer ready to start for Point Pleasant on the first suitable stage of water.

Ship carpenters and caulkers of the Monongahela Valley have begun the eighth week of their strike for a 10 per cent. increase in wages. Eight hundred men are on a strike. The pay has been \$3 a day in the Monongahela Valley and the men say that \$3.50 is paid on the lake and \$4.50 and \$5 on the coast.

Pittsburgh rivermen have been told that there will be coal boat water at or about October 10th, and, though this is two weeks off, many of the coal men have raised steam and started to drop their loaded coal boats down from the upper pools in order to get a good start when the coal water comes. There is perhaps 10,000,000 bushels of coal already loaded in the Pittsburgh harbor and there will be a rush to get coal off to the South as soon as the water justifies because of the great loss of coal there by recent storms.

Plans are being made to transport by river a 6,000-ton steel bridge now in course of construction by the American Bridge Company, from Pittsburgh to Kansas City. The plans contemplate shipping the entire steel work of the structure in a knock-down condition. It is estimated that it can be carried on six freight barges. It is thought that the six barges, drawing about six feet, can make the trip on the Missouri river, although it may require double tripping to get the consignment to Kansas City by water.

The experiment of installing turbine engines and propellers on an Ohio river steamboat is exciting a large degree of interest in river circles and if, as expected, the change will increase the speed of the boat upstream from two to two and a half miles an hour, may result in a complete change in the propelling power of river steamers. The result of the experiment will be closely watched by rivermen. The Pittsburgh and Cincinnati packet Ohio is being fitted out with two turbine engines and a thirty-inch propeller on each side of the boat, located just forward of the rudders. The stern wheel will be retained until Captain E. F. Maddy has given the propeller system a thorough trial. The boat is expected to come off the docks about October 20th.

NATURE'S WARNING.

Maysville People Must Recognize and Heed It.

Kidney ills come quietly—mysteriously. But nature always warns you. Notice the kidney secretions. See if the color is unhealthy—If there are settlements and sediment. Passages frequent, scanty, painful. It's time then to use Doan's Kidney Pills. To ward off Bright's disease or diabetes. Doan's have done great work in this locality. James W. Cottingham, East Second street, Vanceburg, Ky., says: "About two years ago my back became lame and I had almost constant pain across my loins. It was all I could do to drag one foot after another, and I was actually too weak to work. The kidney secretions were scanty and I had a difficulty in passing them. I was laid up at one time for a month and could not leave the house. When Doan's Kidney Pills were recommended to me, I procured a box and began their use. My kidneys were soon restored to their normal condition, I became strong and have had no trouble since. It gives me the greatest pleasure to recommend Doan's Kidney Pills to other persons suffering from kidney complaint."

ROYAL BLUE Chesapeake & Ohio Ry.

For Laundry Use.

Is a very high grade of bluing and specially prepared with the utmost care. Gives clothes a bright, fresh shade, with a beautiful luster. It does in no way streak the clothes, as these cheap, inferior grades do. Many of the finest laundries throughout the country use this bluing daily with perfect satisfaction. You will like it.
One ten cent powder, put into a quart of clear fresh water, will make you as much excellent bluing, in liquid form, as you pay 50 cents for, and of a much better quality. You can make half a pint of excellent blue ink by dissolving the powder in half pint of water. Prepared by
